

I am an Indiana resident, and I want to let you know how much I appreciate the effectiveness of the Indiana Do Not Call Law, and how nice it is not to have telemarketers constantly calling my home. I was very disturbed to hear that the Indiana Do Not Call Law is being threatened. Therefore, I am writing to voice my opinion against the proceeding 02-278 and to implore to you that this law not be passed. The Indiana Do Not Call Law has been very effective, thus far. Why mess with something that works? It took long enough for the Indiana Do Not Call to pass and then to be enforced. Now, with the possibility of 02-278, all that hard work would have been in vain. Please don't let this law come to pass. Thank you.
